Harmar and 101 Mobility “Make A Day” for Gray

SARASOTA, FLORIDA, January 19, 2016 --- Harmar and 101 Mobility teamed up donated a P350 Pool Lift to 12-year-old Grayson Tullio. Grayson Tullio is afflicted with Duchenne Muscular Dystrophy, a terminal disease that breaks down all the muscles in ones limbs and ultimately their heart. With the progression of this disease comes the inability to have the freedom and independence of mobility. It robs those stricken with it, the ability to do the simplest of things that most of us do without a second thought. The Pool Lift was presented just before Christmas and restored Grayson Tullio’s ability to get in and out of the pool for hydro therapy without burdening his parents as he has grown.

“Harmar’s pool lifts, vertical platform lifts, stair lifts and auto lifts are all designed to give those who are mobility challenged greater independence and quality of life. Stories like Grayson’s and many others is the reason Harmar develops innovative products that help those in need overcome daily challenges. For Grayson, swimming puts a smile on his face and gives him great joy and we were so pleased we could help him and his family”, said David Baxter – Harmar vice president of marketing.

Jennifer Tullio, Grayson’s mother shared - “We spent some time researching pool lifts and found out rather quickly via the internet that Harmar had the one we wanted. His only form of exercise is swimming and he loves it. Harmar gave that to our son”.

Harmar’s local dealer, 101 Mobility of Sarasota, donated their time and know-how to perform the site evaluation and installation. 101 Mobility sent their personnel to ensure the best set up for the lift and installed it. Upon completion, Grayson was led to the pool area as a total surprise. After a quick orientation, he took right to the lift and repeatedly lifted himself in and out of the pool with a grin from ear to ear.
